We are enjoying our new soapstone countertop. It goes very well with our new kitchen. The soapstone also looks great under our new gas stove.

Your installers were very good and very personable. They had good attention to detail - Nello in particular.

Thanks for the great job. We had many things go ~~too~~ wrong during our redo but it wasn't because of SSL counter tops.

The cherry butcher block is wonderful too! If I ever get around to it I'll send you a photo of the finished product.

Lee + Mike

P.S. Your design Joel (if I remember) was excellent! Everything was laid out beautifully & thoughtfully.
